

Welcome to Community Health - Where Your Health is Our Mission!

- We offer primary care, behavioral health, pediatric and dental services at locations in Rutland and Addison Counties.
- Community Health offers Express Care in our Rutland and Castleton locations for minor illnesses and injuries, 7 days a week, 8AM to 8PM.
- Vermont Health Connect Navigators are available at all our locations to assist you in signing up for health insurance.
- Sign up for the Patient Portal to save you time and phone calls and provide quick answers to questions.

Community Health serves all patients regardless of income or insurance status. Our sliding fee program allows us to reduce or “slide” the fees for the care of you or your family. You can apply for the program if you need assistance to help you pay for your care. Eligibility is based on family income and family size. A discount is available if payment is made at the time of service. Co-payments are expected at time of service.

Before your first visit:

This welcome packet includes forms you need to read and complete before your first visit:

- Patient Registration Form
- Consent Form
- Medical Records Authorization
- Patient History Form (Dental only)

They help us become familiar with your health history, current treatments and medications, as well as your immediate health needs and concerns. Return completed forms to any of our primary care locations or dental offices.

At that time, we can also assist you with electronic registration, payment options, co-pay collection options, and signing up for our Patient Portal, the secure online access to your medical information (excluding Dental).

We'll also need a list of your current medications including:

- Drug name
- Prescribed dosage(s)
- How long you have been taking the drug(s)

We're excited that you've chosen to receive your care with us. Thank you!
